

Contoso Brand Guidelines

Version 3.2 · Corporate Communications · For internal and partner use

1. Our brand in one sentence

Contoso keeps goods moving. Our brand is calm, precise and dependable: we show real operations, clear numbers and the people who make it work. We never shout.

2. Logo

- Use the full-color logo on white or Mist backgrounds and the white logo on Contoso Navy or on photos.
- Keep clear space around the logo equal to the height of the hexagon mark.
- Minimum width: 30 mm in print, 120 px on screen.
- Never stretch, recolor, rotate or add effects (shadows, glow, outlines) to the logo.
- On slides, the logo sits bottom right on content slides and top left on title slides.

3. Colors

	Name	HEX / RGB	Use
	Contoso Navy	#0B3D91 · 11 / 61 / 145	Primary. Headlines, title slides, logo.
	Harbor Teal	#00A3A1 · 0 / 163 / 161	Secondary. Charts, highlights, icons.
	Signal Amber	#FFB000 · 255 / 176 / 0	Accent only. Max. one element per slide (call to action, warning).
	Charcoal	#2B2B2B · 43 / 43 / 43	Body text.
	Mist	#F4F6F8 · 244 / 246 / 248	Backgrounds and cards.

Ratio rule: about 60 % white/Mist, 30 % Navy, 10 % Teal. Amber is a signal, not a decoration.

4. Typography

- Headlines: Segoe UI Semibold, sentence case, max. 8 words.
- Body text: Segoe UI Regular, at least 18 pt on slides, 10.5 pt in documents.
- Numbers: big and bold in Contoso Navy, with the unit in Charcoal next to it (e.g. 24 weeks).
- No underlines, no all caps except abbreviations such as KPI or ETA.

5. Imagery

- Real operations: warehouses, docks, forklifts, people at work. Bright, natural light.
- Safety first: everyone in a photo of an operations area wears PPE (helmet, high-visibility vest, gloves).
- No stock-photo handshakes, no abstract light trails, no cartoon illustrations.
- Icons: simple line icons in Navy or Teal. The hexagon may be used as a background pattern.

6. Presentations

- Format 16:9. Title slide on Contoso Navy with the white logo and the brand background.
- One message per slide; the headline states the message, not the topic ("Dock 3 closes on Apr 27", not "Dock 3").
- Max. 5 bullets per slide, max. 2 lines per bullet.
- Charts: Navy for actuals, Teal for plan/target, Amber only for the one value that needs attention.
- Last slide: next steps with owners and dates. No "Thank you" or "Questions?" slides.

7. Voice and tone

- Clear and friendly, like a good shift lead: short sentences, active voice, concrete numbers.
- Say "we" for Contoso and "you" for the reader.
- Avoid jargon and buzzwords ("synergies", "best-in-class", "leverage").
- German texts use the informal "du" internally and "Sie" for customers and partners.

Contoso is a fictional company used for Microsoft demos. All names and data are invented.
